## Employer Information

St. Peter's College brings together a picturesque rural setting with a high level of academic integrity and excellence. Located in Saskatchewan's heartland, St. Peter's College offers the best of both worlds, by offering a friendly and supportive learning environment and excellent instruction amidst a beautiful and historical facility and campus.

Our reputation for quality, innovation and excellence has gained provincial, national and international attention. Our former students and alumni are the entrepreneurs, lawyers, science and health professionals, educators and leaders who are making a difference in communities, provinces and countries throughout the world.

St. Peter's College has been affiliated with the University of Saskatchewan since 1926. We offer face-to face classes. Many students attend St. Peter's College to take their first and second year of Arts and Science, Business/Commerce, Agriculture, Engineering or Kinesiology or to fulfill the entry requirements to colleges such as Medicine, Law, Nutrition, Pharmacy, and Education.

## Course Description

An introduction to the underlying fundamental aspects of living systems: covering cell biology, genetics and the evolutionary processes, which lead to complex, multi-cellular life forms.
